City of Atlantis  
260 Orange Tree Drive  
Atlantis, FL 33462

June 2020

## THE MAYOR'S CORNER

Dear Residents,

Let's Celebrate!!! A number of graduating high school seniors live within our community and I hope you take time read about their accomplishments and plans for next year. Go to the City's website homepage and click on a link "Seeking Atlantis Graduates" under the News Flash heading. Or, go directly to the "Class of 2020" page with this link: [atlantisfl.gov/253/Class-of-2020](http://atlantisfl.gov/253/Class-of-2020). There you will find presentation of news from each graduate. The City of Atlantis is proud of their accomplishments and wish all our graduates the best!! If you know a neighboring Atlantis resident who isn't listed, please have them share their story. I am sure many of the graduates are disappointed that they cannot enjoy some time-honored events (prom, graduation ceremony, etc.) normally associated with graduation. Reach out and congratulate them. Make them feel a special!

Many of you know that I ride a bike for exercise. I often ride outside the confines of our City and frequently circumnavigate trails and roads around Lake Osborne. During recent rides I noted the increase in number of people enjoying the outdoors and using the opportunity to exercise. The pandemic may have closed some opportunities but it has opened others. You probably have noted the same on the streets of Atlantis. Walkers, bicyclists, roller bladers and golf cart riders are everywhere. This has led to many on-street meetings between neighbors. Good fellowship builds a good community. As our lives change to whatever new reality we will find, I hope we all can continue to enjoy each other. Keep up the good work.

At the same time, we should be extra careful as drivers. As the signs say when you enter the City, "Share the Road". Drive safely and within the speed limit. Give residents a way to exercise, walk the dog, and enjoy each

other. Use your turn signals, come to full stops, slow your speed and don't be afraid to safely cross the road centerline to go around pedestrians. Walkers! Walk facing traffic. Riders! ride with traffic. Let's all do our part.

Many thanks go out to the residents who have been working with the City Manager and City vendors to bring an upgrade to our entry landscaping. I'm sure you have noticed some recent additions and improvements. It is good to see planting of species that differ from our usual annuals and trees. This "freshening up" is commendable.

After some reduced time in the Council Chambers, the City Council has scheduled a series of upcoming workshops and special meetings to deal with Code Revisions, City budget and City Strategic Plan. The Council has been working for months to update our code. We are finishing signs, minimum property standards and zoning. We hope to finish these topics in June and then take a break from the Code. We want to get back to looking at the budget and some strategic planning that needs to be moved up on the schedule. Please do your best to attend council meetings that may interest you.

Council and administration have tried to make our meetings available to residents through electronic remote participation. The success of this approach has been limited. We are still working out the kinks and hope to improve clarity and convenience as we move forward. Council meetings are once again open to the public. However, seating is on a limited, first-come, first-served basis. Complying with social distancing guidelines has limited the number of audience seats to about a dozen. We continue to be open, transparent, and accessible with our meetings. We appreciate your patience as we deal with the technological challenges.

**CITY MANAGER NOTES****Reopening...**

As the positive virus case numbers continue to trend down, we are making plans to reopen City Hall and public meetings.

Taking the necessary precautions, we anticipate reopening City Hall to the public on Monday, June 8<sup>th</sup>. Our lobby will look a little different and we will be practicing social-distancing. We will continue to serve customers by telephone or email and encourage those that are not ready to visit City Hall to utilize our new payment and permit drop box located just outside the City Hall entrance.

The City Council has resumed in-person meetings. Due to the spacing required, most public meetings will be limited to twelve (12) members of the public. We will continue to broadcast meetings via a virtual platform through the month of June and perhaps longer. The next meetings on the agenda are a June 3<sup>rd</sup> code revision workshop and June 15<sup>th</sup> budget workshop. Additional information is available on the City's website.

Last month, I noted that hurricane season was fast approaching and is anticipated to be an above average year. Well, it's June 1<sup>st</sup> and the season has already had two named storms and one made landfall in South Carolina. With the forecast for this season to be above average, combined with the challenges of potential evacuations and public shelters, I think it deserves repeating that we should all make our preparedness plans early this year. Make critical decisions regarding where and when you may evacuate, if needed. Trim trees and landscape as soon as possible. Check both your hurricane recovery and virus prevention supplies and stock up now, before the shelves are empty, again!

The City would like to thank our residents for their creative vision and helping to craft our landscape improvements. We have more work to complete but have made substantial progress on our Clubhouse Boulevard entrance and fountain. A special thank you to Pat & Ray Matulis for their generous financial contribution toward the improvements.

Stay safe and stay positive.

**Brian Moree, City Manager**

**CITY NEWS**

Due to the current state of emergency due to COVID-19, on May 13th at 7 p.m., a Special City Council Meeting was held via tele-conference.

Resolution 20-07, establishing policy for online Council meetings, passed 5-0. The approval included a few minor corrections agreed upon by City Attorney Keith Davis and Councilor Motzer.

The City Manager reported that City Hall would reopen June 1st, with lobby adjustments so as to include social distancing. For the benefit of everyone, including yourself, masks are strongly recommended. No one wants to get sick with the virus, or carry the virus to friends and family. Please do not gamble with human lives.

On May 20th at 7 p.m., the City Council meeting was held. This meeting was conducted in person and via teleconference on Webex.com.

Passing 5-0, Resolution 20-08 authorizes the Mayor to sign an Interlocal Agreement with Palm Beach County for the continued use of the County's Communications System.

Also passing 5-0, Resolution 20-09 authorizes the Mayor to sign an Interlocal Cooperation Agreement with Palm Beach County as part of the Urban Qualifications Process for the receipt of federal community development funds from the U.S. Dept. of Housing and Urban Development (HUD).

Atlantis received a thank you letter from the Palm Beach County League of Cities for hosting the League's February meetings which were held at the Atlantis Country Club.

Atlantis also received a thank you letter from the Palm Beach County Supervisor of Elections for accommodating the voters in our community at Atlantis City Hall on March 17th for the Presidential Preference Primary and Uniform Municipal Elections.

Special Budget Workshops and Meetings were scheduled for June 15th, July 22nd, September 2nd. And 16th. The next regular Council Meeting is June 17th.

**William Mitchell**

## POLICE DEPARTMENT NEWS

Chief Robert G. Mangold

### Community Safety through Community Awareness and Involvement:

**Crime Prevention Tip: Email threats exploiting coronavirus fears**

The COVID-19 pandemic is a huge opportunity for cyber criminals. And they are taking full advantage of it: spear-phishing attacks using the coronavirus as a hook have been growing since early 2020.

**Malware:** A number of common malware types are being distributed through coronavirus-related phishing. The first malware reported utilizing coronavirus was Emotet, a popular banking Trojan. LokiBot is another modular malware, which often aims to steal login credentials and data and has been distributed in at least two different coronavirus-related phishing campaigns.

**Scamming:** Fifty-four percent of COVID-19-related spear phishing attacks were scams. Most of them appear to be offering coronavirus cures and face masks for sale, requesting donations to fake charities, or asking for investments in fake companies that claim to be developing vaccines.

**Brand Impersonation:** Attacks impersonating well-known brands and services make up around 34 percent of COVID-19 spearphishing attacks. Notably there are a number of attacks impersonating the World Health Organization. These phishing emails appear to come from WHO with information on COVID-19. They often use domain spoofing tactics to trick users into thinking these messages are legitimate. These email impersonation attacks include a link in the body of the email. Users who click on that link are taken to a newly registered phishing website.

**Blackmail:** Some attackers use raw emotional leverage to get readers to respond out of fear or embarrassment. With heightened anxiety and fear around COVID-19, it's not surprising that some are using that emotion in blackmail or extortion attempts. For example, some attacks have threatened to infect victims and their families with coronavirus unless a ransom was paid—and they make credible claims to knowing who you are, where you live, etc.

# CODE COMPLIANCE NEWS

Code Officer William J. Amason

Hope this newsletter finds all healthy, safe, and following guidelines suggested by the CDC as we all navigate this Coronavirus pandemic.

Thanks to those who refrained from producing large amounts of vegetative waste in April and first part of May after the request by Palm Beach County Solid Waste. But now, June is here, and it's time to address landscape, hedge and tree concerns in preparation for the upcoming storm season. Take the time now to do the yardwork, landscaping, sprinkler repair, spreading of fertilizer, and in some case weed killers to bring yards into compliance that we all have been putting off for a long time.

Coinciding with preparation for the upcoming Hurricane season we would like to once again remind the citizenry of our Landscape Ordinance.

## Chapter 8.5—LANDSCAPING AND TREE PROTECTION: ARTICLE 1.—IN GENERAL

### Sec. 8.5-7. - Supplemental regulations.

- (h) *Maintenance.* The owner of the property shall be responsible for maintenance of all landscaped areas which shall be maintained so as to present a healthy, neat, and orderly appearance at all times and shall be kept free from refuse and debris. In the event any landscape material should die, such material shall be replaced within 30 days.

A big thank you goes out to all who are adhering to the City's request, as prescribed in the City Code, for not putting your Garbage and Recycle containers curbside. As your Code Officer and fellow resident this simple act does make a difference to the look of the City of Mondays and Thursdays.

### **Please continue to follow these guidelines:**

When violations are observed, the Code Compliance Officer is continuing to make an extra effort for personal contact

#### Do's

- Screen garbage and recycle containers from public view
- Put vegetative waste out on Sunday after 12 noon
- Put bulk waste out after 5 p.m. on Sunday

#### Don'ts

- Put containers curbside
- Allow lawn care companies to leave the vegetative waste they make. You are responsible. In the future it may not be picked up and you could be charged.

with the responsible parties (while practicing social distancing), primarily for educational purposes and to remind them of certain City of Atlantis codes they may not be familiar with.

### **CODE STATISTICS March thru May 2020:**

Violations identified: 95  
 Courtesy Notices: 66  
 In compliance upon request: 35  
 Pending: 31 *Mostly educational and reminder contacts*

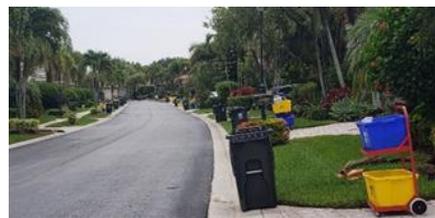

**If you have questions, complaints, or wish to offer suggestions please contact:**  
**City of Atlantis Code Department**  
**C/O Bill Amason**  
**wamason@atlantisfl.gov**  
**561-965-1744/561-822-6005 cell**

## NEW TRASH RULES

In November, the City Council passed Ordinance 453 amending Code Chapters 8 and 15 addressing trash pick-up regulations. The Council considered that underground containers often can't be repaired or replaced, and amended the Code accordingly. These changes are currently in effect.

- Trash containers may be kept above ground, within the residential building, or outside, if properly screened from public view.
- All containers continue to be required to be watertight with tight fitted covers.
- Trash containers shall be accessible for collection from the backyard or side yard on the designated collection days, without the necessity of unlocking a door, fence, gate, or similar obstacle. Containers shall be screened from public view from the adjacent right-of-way or neighboring property.
- Vegetative waste may be placed at the curb at noon on Sunday for Monday pick-up. Bulk may be placed curbside at 5 p.m. Sunday for Monday pick-up, with the exception of the first Sunday of the month, when it may be placed curbside at noon. Otherwise, all such waste and trash shall be screened from public view from the right-of-way adjacent to the front yard.
- Recycling containers shall be placed by the underground containers or with the above ground containers in the back or side yard and properly screened from public view.
- Screening may consist of obstructed view behind the residence, screening material, or hedge.

The City is striving for the following look on Mondays and Thursdays

## **FLOOD HAZARD & PREPARATION INFORMATION**

### **THE LOCAL FLOOD HAZARD**

Every property is at risk of flooding. In fact, there is a 26% chance of experiencing a flood during the life of a 30-year mortgage. Many factors contribute to flooding in areas not designated as Special Flood Hazard Areas. The greatest flood threats come from excessive rainfall that accompanies coastal storms, tropical storms and hurricanes. Finished Construction Elevation Certificates are on file. The Flood Insurance Rate Map (FIRM) provides flood zone determinations to advise if you are in a flood hazard area. All properties within the City of Atlantis are in the X flood zone. You may contact City Hall with any questions about the flood zone.

### **FLOOD INSURANCE**

Homeowner's insurance policies DO NOT cover losses due to flooding. There is a 30-day waiting period. Please note that new flood insurance policies will not be written once a storm is approaching. The City of Atlantis participates in the National Flood Insurance Program, which makes flood insurance available to everyone in the City. For most, a home and its contents are their greatest investment. All property is subject to the possibility of flood damage, from hurricanes or other weather events, you should be protected with an NFIP Flood Policy. Contact your insurance agent and have him or her discuss the types of coverage available to you. For additional information about flood insurance, visit FEMA's website at: [www.fema.gov/business/nfip/](http://www.fema.gov/business/nfip/) or <https://www.floodsmart.gov/>

### **FLOOD SAFETY**

There is no substitute for advance planning and preparation. Be aware of what steps to take to minimize your losses due to flooding. Prepare and annually update an inventory of all personal property with descriptions and photos, store drinking water in clean containers, keep a portable radio and flashlights on hand with fresh batteries, and have adequate first-aid supplies on hand. The local television and radio stations will warn you when it is necessary to secure your property and evacuate. Live electrical lines cause most hazards. If it appears that floodwaters will enter your home, turn off all electric and gas service. If you find that water has entered your home, do not touch electrical switches or appliances to either turn them on or off. Outside, avoid any pools of water in which a downed power line is laying. You must assume that all downed power lines are energized. Do not drive through a flooded area.

To create a personalized disaster preparedness plan for your family and/or business, please visit the State of Florida Disaster preparedness website at: [www.floridadisaster.org](http://www.floridadisaster.org)

### **SUBSTANTIAL IMPROVEMENT REQUIREMENTS:**

The National Flood Insurance Program (NFIP) requires that, if the cost of the reconstruction, rehabilitation, addition, or other improvements to a building equals or exceeds 50% of the building's market value, the entire building must meet the same construction requirements of a new building.

### **PERMITS**

The City of Atlantis Building Department requires permits for all construction. This includes new construction, repair/ replacement work, additions, signs, fences, fill, tree removal, etc. The City of Atlantis has adopted the Florida Standard Building Code. Parts of this code regulate the amounts and types of construction in the floodplain. You must always consult with the building official when planning any kind of construction. When others violate our floodplain laws, it could affect your property. The building official should be made aware of such activities.

### **THE FLOOD WARNING SYSTEM:**

The City has a reverse 911 telephone dialing system that will notify of pending storms. In addition, copies of Palm Beach County's Flood Warning Program are available at your nearest county library. Palm Beach County Emergency Management maintains direct contact with the National Weather Service. Local television and radio stations will broadcast hurricane associated flood warnings 36 to 48 hours prior to the flooding event. When the National Weather Service forecast intense rainfall, our drainage system can be lowered in an attempt to receive the extraordinary volume of water expected.

During periods of prolonged rainfall, areas of the county are kept under surveillance and reported to the Emergency Operating Center. When advised of problem areas, response actions will be taken. When you detect street flooding in your own area, tune to a television or radio station known by you to have an active news bureau. You will be advised of measures you should take to protect your property and yourself. If you have a weather band radio, tune it to NOAA, weather radio frequency 162.475 MHz to receive local weather updates.

### **PROPERTY PROTECTION MEASURES**

When it appears that your neighborhood is becoming seriously inundated, there are simple things you can do to protect your property: things such as sandbagging building entrances and moving your motor vehicles to higher ground; raise furniture off the floor or move it to upper floors. Many of the things you own are not only valuable but are considered by you to be irreplaceable. These items should be elevated above the floor level to protect them from flood damage. Store materials like tarps, sandbags, plastic sheeting, plywood, and lumber to protect structures, and to make quick repairs after a severe storm. Board up or shutter windows and doors. FEMA resources can be accessed online at

[www.pbclibrary.org/grsmainresources.htm](http://www.pbclibrary.org/grsmainresources.htm)

### **DRAINAGE SYSTEM MAINTENANCE**

The Lake Worth Drainage District maintains the lateral canals in Atlantis. The Public Works Department maintains the remaining swales and storm drains. To reduce the risk, severity or duration of flooding; it is vital to maintain the water-carrying capacity of the drainage system. Florida law prohibits the willful obstruction of our drainage systems and provides both civil and criminal penalties for anyone convicted of such a felony. Anytime you see debris partially or completely blocking a storm drain opening please canals. If you see anyone disposing of anything, including liquids, trash, vegetation or any other debris into any component of the drainage system please report it immediately to the Atlantis Police Department at 561-965-1700.

### **BENEFICIAL FUNCTIONS OF THE FLOODPLAIN:**

These benefits take many forms:

Natural flood and erosion control: Provides natural flood and erosion control by flood storage and conveyance and reducing flood velocity.

Water quality: Improves water quality by filtering nutrients and impurities from runoff.

Ground water recharge: Recharges the ground water while simultaneously reducing the frequency and duration of surface flow.

Biological resources; Supports high rate of plant growth, provides breeding and feeding grounds and enhances waterfowl habitat.

Societal resources: Provides open space, aesthetic pleasures for the community and opportunities for scientific and environmental research studies.

### **NPDES (National Pollutant Discharge Elimination System) REQUIREMENTS:**

The City of Atlantis must follow the Federal government's requirements in our NPDES permit. It is everyone's responsibility to protect our water resources. Please do not directly discharge any used water into our watercourses. Simple examples are washing vehicles in close proximity of a storm drain and storing chemicals outdoors. The law prohibits dumping toxic waste, including pesticides, into the ground or groundwater. TOXIC or hazardous wastes include such things as oil and antifreeze. If you see anyone disposing of anything into any component of the drainage system, please report it immediately to the Atlantis Police Department at 561-965-1700.

Outdoor use of pesticides, herbicides, and fertilizers must be applied sparingly to avoid contamination of our surface waters. Please follow directions and do not overspray pesticides or herbicides. Also please do not apply amounts in excess of the recommended amounts for fertilizers. Organic or slow release fertilizers are preferred as these are less likely to be washed off into the storm drain system. Also, please apply only to the targeted areas and remove excess from any paved surfaces. South Florida is a sub-tropical rainfall region, so please consider reducing applications in the wet season and/or apply early in the morning to avoid our typical afternoon thunderstorm pattern in the wet season (June through October). Remove and dispose of the debris or call at the City at 561-965-1744. It is illegal to dump or throw anything into the ditches and canals. If you see anyone disposing of anything, including liquids, trash, vegetation or any other debris into any component of the drainage system please report it immediately to the Atlantis Police Department at 561-965-1700.

**Summer

## Atlantis Country Club

[www.AtlantisCountryClub.com](http://www.AtlantisCountryClub.com)

190 Atlantis Blvd. • Atlantis, FL 33462 • Golf: 561.968.1300 • Dine: 561.965.5788

### Welcome Back to Golf at Atlantis Country Club

Atlantis Country Club is following guidelines established for the safety of both our employees and golfers.

Non-member tee-times can be booked up to 3 days in advance online at [AtlantisCountryClub.com](http://AtlantisCountryClub.com). The online tee-times are pre-paid tee-times.

**Call 561-968-1300 for information and tee times!**

### [Snack Bar Now Open at Atlantis Country Club](#)

In addition to the Golf Course, the Snack Bar is open for breakfast and lunch. Both take-out at the window and dining inside and on the outdoor patio (according to current guidelines) are available. Snack bar hours are 7:30 am to 4:30 pm. The popular regular menu items are available and beer, wine and spirits are also available.

All Atlantis CC facilities are open to the public since 1972.

[Call 561-965-7700, extension 32](tel:561-965-7700)  
for orders and information.

## Storm Water

### [www.StormwaterAndMe.org](http://www.StormwaterAndMe.org)

By knowing the facts and being aware, you can help clean up our lakes and waterways. Always remember, **nothing but stormwater** belongs in the stormdrains.

#### Pool Care:

Discharge of chlorinated pool water into the city's storm drain is prohibited. Pool water must be dechlorinated and discharged on to the ground, not into the storm drain system. Discharge from pool maintenance, replastering or other construction is strictly prohibited.

#### Lawn Care:

- Use pesticides and fertilizers sparingly. When use is necessary, use these chemicals in the recommended amounts.
- Use organic mulch or safer pest control methods whenever possible.
- Compost or mulch yard waste. Don't leave it in the street or sweep it into storm drains or waterways.
- Don't overwater your lawn. Consider using a soaker hose instead of a sprinkler.
- Cover piles of dirt or mulch being used for landscaping projects.

#### House Care and Maintenance:

- Purchase biodegradable, non-toxic products.
- Use, store and dispose of products as directed on the container.
- Sweep up and properly dispose of any construction debris.

#### Vehicle Care:

- Use a commercial car wash or wash your car on a lawn or other unpaved surface.
- Check your vehicle regularly for leaks and/or spills. Clean up and properly dispose of materials used for spill clean up. Repair leaks as soon as possible to prevent future spills.

Be on the lookout for anything being dumped into storm drains or water bodies. Some common illegal discharges to storm drains include:

- Antifreeze
- Automotive fluids
- Construction debris (wood, drywall, concrete, mortar)
- Debris (plastic bags, six-pack rings, bottles, and cigarette butts)
- Detergents
- Disinfectants
- Excessive dirt and gravel
- Fertilizers
- Insecticides
- Grease
- Oil filters
- Paint
- Pesticides
- Pet waste
- Solvents/degreasers
- Trash
- Yard waste (leaves, grass, mulch)
- Take the time to educate others on the negative impact of dumping into a stormwater system.
- Call the City of Atlantis Police at 561-965-1700 to report dumping and discharges into stormwater systems.
